

**Letter of recommendation for Dwaraknath Gnaneshwar  
for completion of his internship at aiXplain**

It has been a pleasure to work with Dwaraknath as his supervisor and mentor. He has truly proven himself to be devoted to internship work. During his 6 month AI/ML Engineer internship at aiXplain, he exhibited an eagerness to learn, create, and grow.

Dwaraknath quickly showed great ambition performing AI and Data Science tasks in the area of ML-based Chatbot and Information-Retrieval System development, and also significantly contributed to the team development and cultural growth.

He also took care of Deep Learning model deployment for inference (incl. Flask API end-points creation) as the main person responsible for that in our team. He truly relied on the company's principles, followed internal processes and requirements.

Dwaraknath displayed excellent work ethics by maintaining punctuality and being prepared for meetings and calls. Throughout his internship, he has demonstrated that he is organized, reliable, and easy to work with.

I strongly believe and would like to emphasize that Dwaraknath would certainly be a tremendous asset to any company and has my highest recommendation.

Sincerely,

Kamer Ali Yuksel

Principal AI Architect at aiXplain, inc.
